Profile

Full-Stack MERN Developer with hands-on experience building responsive frontends (React.js, Tailwind CSS) and robust backend APIs (Node.js, Express.js, MongoDB). Strong academic record (CGPA: 8.6) combined with hands-on project and internship experience. Currently beginning formal training in Cybersecurity and Penetration Testing and pursuing eJPT v2 (INE Security), aiming to apply full-stack knowledge to application security as skills mature.

Personal Lab & Portfolio

MSB Labs (msbs.systems) | Full-Stack Web Application

Live: msbs.systems

- Designed and developed a fully functional personal lab and portfolio platform to document projects, certifications, technical notes, blogs, and proof-of-work.
- Built as a dynamic full-stack web application with dedicated sections for projects, development/security tools, notes, blogs, resume hosting, and contact functionality.
- Actively used to publish detailed daily technical notes and ongoing study material, including eJPT v2 documentation and lab observations.
- Serves as a centralized technical identity and long-term learning archive to demonstrate proof-of-work.

Projects

FitTrack | MongoDB, Express.js, React, Node.js, JWT, Tailwind CSS

- Live:** fitness-tracker-frontend-r9bc.onrender.com | **Repo:** github.com/MSB-io/Fitness-Tracker
- Built a full-stack MERN fitness tracking platform implementing JWT-based authentication and role-based access control for users and trainers.
- Implemented workout logging, nutrition tracking with macro calculations, weight monitoring, and goal setting using RESTful APIs.
- Developed trainer-specific features enabling client assignment, training plan creation, and progress monitoring.
- Created interactive dashboards and progress reports using charts to visualize fitness statistics and trends.
- Designed a scalable backend using Node.js, Express.js, MongoDB, and Mongoose following clean API architecture.

JustStream | HTML5, CSS3, Vanilla JavaScript, TMDB API

- Live:** msb-io.github.io/JustStream | **Repo:** github.com/MSB-io/JustStream
- Developed a lightweight online streaming platform for browsing and watching movies and TV shows using vanilla JavaScript.
- Integrated TMDB API to fetch trending, popular, and top-rated content with search and genre-based filtering.
- Implemented embedded video playback using VidSrc, including TV show season and episode navigation.
- Designed a fully responsive UI with custom CSS, Flexbox, and Grid layouts, featuring an AMOLED-friendly dark mode.

Experience

BreachForce

Volunteer

Mumbai, Maharashtra

Dec. 2024 – Present

- Contributed to community security initiatives and volunteer projects; assisted with reconnaissance and documentation tasks to support vulnerability research.
- Collaborated with team members on writeups and basic tooling tasks to document findings and learning outcomes.

CodeDev Verse

Web Development Intern

Remote / Mumbai

May 2025 – Jul. 2025

- Contributed to front-end development of web applications using React.js and modern CSS practices (TailwindCSS), improving UI consistency and responsiveness.

- Identified, debugged, and optimized code for improved performance and scalability.
- Created and maintained technical documentation to support development and collaborated with cross-functional team members.

LetsUpgrade

Marketing Intern

Mumbai, Maharashtra

Dec. 2024 – Mar. 2025

- Uploaded 1,468 question papers and added 57,310 unique questions to improve academic content and searchability.
- Contributed to user growth metrics (5,711 users reached; peak week growth of 1,019 new users) and increased engagement (2,017 profile completions).
- Enhanced AI content workflows by creating 1,919 answers, 210 explanations, and 183 simplified solutions; coordinated college review efforts across 561 institutions.

Technical Skills

Languages: JavaScript (ES6+), Node.js, Python, HTML5, CSS3, SQL

Frontend: React.js, Tailwind CSS, Vite, Responsive Web Design

Backend / DB: Express.js, MongoDB, Mongoose, RESTful APIs, JWT Authentication

Tools: Git, Postman, Linux

Certifications

React Basics – Meta (Coursera)

Programming with JavaScript – Meta (Coursera)

Postman API Fundamentals – Postman

Introduction to Critical Infrastructure Protection – OPSWAT Academy

eJPT v2 (eLearnSecurity Junior Penetration Tester) – INE Security In Progress

Education

ITM Group of Institutions

Bachelor of Technology in Computer Science | CGPA: 8.6

Mumbai, Maharashtra, India

2024 – 2028
